# IIHF Congress

**GENERAL CONGRESS**
The General Congress is the IIHF's highest legislative body and makes decisions about the rules of the game, the statutes, and bylaws. The General Congress, which is made up of representatives from all IIHF member associations, elects the president and the council.

With some exceptions, the General Congress is held every fourth year. The General Congress was held for the first time in 1975. Prior to that, the federation elected the president and the council at the Annual Congress that usually was held in conjunction with the IIHF World Championship.

The General Congress meets ever four years. It is organized by the IIHF office in co-operation with the hosting member national association.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

**ANNUAL CONGRESS**
The Annual Congress meets every year during the IIHF World Championship or where applicable at the time of the General Congress. It is organized by the IIHF office in co-operation with the hosting member national association.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

**SEMI-ANNUAL CONGRESS**
The Semi-Annual Congress meets every year in the autumn. It is organized by the IIHF office in co-operation with the hosting member national association of the upcoming World Championship.

Notice of all regular Congresses will be given by the IIHF office not later than two months before such Congress together with the agenda. Relevant documents will be sent out at least one month before the Congress.

**EXTRAORDINARY CONGRESS**
The Extraordinary Congress meets within three months following the request for such meetings. An Extraordinary Congress shall be called only upon request of one third of the member national associations in good standing or by Council. The items on the agenda shall be limited to those specified at the time the Extraordinary Congress is requested.

# LIHG-IIHF History

(Ligue Internationale de Hockey sur Glace—International Ice Hockey Federation)

The change in usage from LIHG to IIHF was gradual and not precipitated by one particular decision at any one meeting. LIHG was used at the time of the organization's founding on May 15, 1908, because the founder, Louis Magnus, was French, and in the ensuing years many of the presidents and top officials from Belgium and Switzerland also spoke French.

The LIHG formally adopted "International Ice Hockey Federation" as the English translation of LIHG on September 1, 1946. Still, it was many years before that abbreviation took hold.

The last time the LIHG logo appeared on the cover of the organization's minutes books occurred at the 1954 Annual Congress in Stresa, Austria. This also marks the last time the title page was in French only. At the next Congress, the 39th edition in Dusseldorf, West Germany, the title page was in French and English and the LIHG logo was absent. In 1963, the cover for the Congress minutes was in English only.

The last time the contents of the Congress minutes were bilingual was at the 7th Bi-Annual Congress in Ljubljana, Yugoslavia, in March 1966. At the next Congress, the 50th Annual Congress, the text was in English only and there was no reference at all to LIHG.

Later, the Congress minutes became bilingual again, but the second language to complement English was now German. This is currently how the minutes are kept and the IIHF's history recorded.

# IIHF Member Nations, Chronological Date of Membership

**LEVELS OF MEMBERSHIP**

There are three kinds of membership within the IIHF's 74-member national associations:

**FULL MEMBERS** participate annually in IIHF tournaments and have independent national associations specifically for hockey.

**ASSOCIATE MEMBERS** may or may not take part in IIHF tournaments but do not have independent national associations.

**AFFILIATE MEMBERS** participate only in IIHF Inline events. All nations below are full members unless noted. Only full members have voting rights at the IIHF Congresses.

# Important Developments in International Hockey

## Origins

**1799**—In a letter written in Chesham, England, William Pierre Le Cocq wrote: "I must now describe to you the game of Hockey; we have each a stick turning up at the end. We get a bung [a plug used as a stopper on barrels]. There are two sides. One of them knocks one way, and the other side the other way. If any one of the sides makes the bung reach that end of the churchyard, it is victorious."

**October 21, 1825**—Sir James Franklin wrote in a letter: "We endeavour to keep ourselves in good humour, health, and spirits by an agreeable variety of useful occupation and amusement. Till the snow fell, the game of hockey, played on the ice, was the morning's sport."

**1873**—James Creighton devises informal rules for a new winter game in Montreal, a game which later became known as ice hockey.

**March 3, 1875**—The first true hockey game is played. The pre-announced indoor game between two named teams, officiated by a referee and using a puck, is played at Montreal's Victoria Skating Rink. Goal posts are six feet wide and the game lasts 60 minutes. The rink's dimensions are approximately 200' x 85', the standard by which all future North American rinks are built. A plaque to honour this game is dedicated at the Bell Centre, across the street from the arena's original location, in 2008.

1. *The game shall be commenced, and renewed by a Bully from the center of the ground. Goals shall be changed after each game.*
2. *When a player hits the puck, any one of the same side who at such moment of hitting is nearer to the opponents' goal line is out of play, and may not touch the ball himself, or in any way whatever prevent any other player from doing so, until t he ball has been played. A player must always be on his own side of the ball.*
3. *The puck may be stopped, but not carried or knocked on by any part of the body. No player shall raise his stick above his shoulder. Charging from behind, tripping, collaring, kicking or shinning shall not be allowed.*
4. *When the puck is hit behind the goal line by the attacking side, it shall be brought out straight 15 yards, and started again by a Bully; but, if hit behind by any one of the side whose goal line it is, a player of the opposite side shall hit it out from within one yard of the nearest corner, no player of the attacking side at that time shall be within 20 yards of the goal line, and the defenders, with the exception of the goal-keeper, must be behind their goal line.*
5. *When the ball goes off side, a player of the opposite side to that which hit it out shall roll it out from the point on the boundary line at which it went off at right angles with the boundary line, and shall not play it until it has been played by another player, every player being then behind the ball.*
6. *On the infringement of any of the above rules, the ball shall be brought back and a bully shall take place.*
7. *All disputes shall be settled by the Umpires, or in the event of their disagreement, by the referee.*

**December 26, 1894**—The North Avenue Rink, the first artificial arena in the United States, opens. The rink dimensions are 55' x 250'.

## Teams and Players

**1883-1920**: 7 players—Teams in Canada standardize the size of rosters and names of position. Each side now has seven men, and their positions are called left wing, right wing, centre, rover, point, cover point, and goalie.

**1920**: 6 players—During Congress at the 1920 Olympics, the IIHF decides to eliminate the rover, reducing teams to six men a side. The positions are now called goalie, defencemen (two), left wing, right wing, centre (forwards).

**2003**: 6 players for regulation, 5 for overtime (goalie, two defencemen, two forwards).

## Length of Games

| | |
|---|---|
| 1920 | 2 x 20 |
| 1924 | 3 x 20 |
| 1928 | 3 x 15 (finals 3 x 20) |
| 1930-31 | 3 x 15 |
| 1932-39 | 3 x 15 (all games—10:00 mandatory OT (i.e., no sudden death) to a maximum of three overtimes if tied after regulation or 10:00 OT or 20:00 OT) |
| 1947-91 | 3 x 20 |
| 1992-2002 | 3 x 20 (10:00 sudden death OT for all playoff elimination games + game-winning shots (five shots)) |
| 1997 | 3 x 20 (10:00 sudden death OT for all playoff elimination games + game-winning shots (five shots); 20:00 OT for Gold Medal Game) |
| 2003 | 3 x 20 (10:00 sudden death OT for quarter-finals, semi-finals, bronze medal game; 20:00 sudden death OT for gold medal game—all OT played 4-on-4 + shootout (five shots)) |
| 2007-present | 3 x 20 (5:00 sudden death OT + penalty-shot shootout (three shots) for games prior to playoff elimination round; 10:00 sudden death OT + penalty-shot shootout (three shots) for quarter-finals, semi-finals, bronze medal game; 20:00 sudden death OT for gold medal game + penalty-shot shootout (three shots)—all OT games played 4-on-4) |

## Size of Rosters

**February 7-22, 1998**—For the first time since its founding in 1917, the National Hockey League takes a break to allow its players to participate in the Olympic Winter Games. The Czech Republic wins its first Olympic gold in Nagano, Japan. As well, women's hockey makes its debut on the Olympic program and the United States wins the historic gold medal, defeating arch-rival Canada, 3-1, in the gold-medal game.

**May 22, 2000**—Finland's Alpo Suhonen becomes the first European to be named head coach of an NHL team when he is hired by the Chicago Blackhawks. One month later, Ivan Hlinka of the Czech Republic is made coach of Pittsburgh. Neither lasts the season.

**July 15, 2007**—The NHL and IIHF mutually agree to terminate the Player Transfer Agreement.

**September 1, 2008**—The first Victoria Cup is played, providing the first meaningful competition between an NHL club team and a European champion team.

**May 20, 2010**—Swedish referee Marcus Vinnerborg becomes the first European referee to sign with the NHL.

**2013**—The NHL and IIHF mutually agree to sign a new Player Transfer Agreement (Russia, however, refuses to participate in the deal).

## Rules of Play

**March 14, 1911**—The LIHG adopts "Canadian rules" for all levels of play.

**1920**—The LIHG adopts Canadian rules for all World Championship and Olympic games.

**February 21, 1933**—The IIHF, following Canadian rules, eliminates offside within each of the three zones of play.

**1936**—The three zones of the hockey rink are introduced. Players must carry the puck to another zone, not pass it. Body-checking is allowed only in the defensive zone. Rink size is changed to 60m x 30m.

**September 1, 1946**—The red line at centre ice and the modern offside rule are introduced. Body-checking is allowed only in the defensive half of the ice.

**February 20, 1949**—The IIHF adds a second referee for games (no linesmen).

**1969**—Body-checking is allowed in all three zones in international hockey, a rule change that paves way for future confrontations between "amateurs" and "professionals."

**1971**—Czechoslovakia's Marcel Sakac, Sweden's Leif Holmqvist and Christer Abrahamsson, and United States's Carl Wetzel are the last goaltenders to play without a face mask in the World Championship.

**February 1972**—Team USA becomes the first national team to wear name bars on their sweaters at the Olympics in Sapporo. Masks for goalies are now mandatory.

**1977**—For the first time the World Championship is officiated by one referee and two linesmen.

**September 22, 1979**—The IIHF mandates the use of visors for all games starting in 1981.

**1980**—The IIHF and IOC introduce shootouts for placement games but none is needed until 1988 when France and Norway go to a penalty-shot shootout to decide 11th place.

**1992**—The IIHF bans body-checking from women's hockey.

**1994**—The Lillehammer Olympics mark the introduction of video review. Teams are also now allowed one, 30-second timeout each game.

**1997**—IIHF Congress decides to take away the red line for the purpose of allowing the two-line pass, the most important rule change in international hockey since 1969. The new rule is implemented for the first time at the 1999 World Championship in Norway.

**2006**—IIHF Congress eliminates tie games by introducing overtime and penalty-shot shootouts to games during all rounds of play at all tournaments. The three-point system is simultaneously introduced, giving a team that wins in regulation time three points, while giving a win in overtime or shootout winner two points and a loser in overtime or a shootout one point. New standards for smaller goalie equipment (notably blocker, glove, and pads) are established for the upcoming 2006-07 season.

**2008**—The IIHF adopts the four-man official system (two referees, two linesmen).

**2015**—The IIHF utilizes the four-man official system in women's hockey.

## The Goal Crease

**1936-37**—A large semi-circle approximately five metres in diameter extending about three metres in front of the goal line.

**1947-70**—A small rectangle with outside lines 30 cm from each post extending 1.25 metres in front of the goal line.

**1971-78**—A semi-circle starting at either end approximately 30 cm from each post and curving around the goal to a maximum distance of 1.25 metres in front of the goal line.

**1979-92**—A return to the rectangular crease from 1947-70.

**1993-94**—A hybrid of the two previous creases; a rectangle with outside lines 30 cm from each post extending 1.25 metres in front of the goal line, and outside this rectangle the semi-circle starting approximately 30 cm outside each outside line and arcing around the rectangle such that the arc touches the top corners of the rectangle farthest from the goal. The total width along the goal line from one end of the outside arc to the other is 3.66 metres.

**1995-present**—A semi-circle only, the inner rectangle having been removed, and the remaining semi-circle now painted blue.

## International Timeline

**1897**—Canadian champion skater George Meagher travels to Paris, France and brings hockey equipment with him. He oversees a series of friendly games between Paris' Palais de Glace Club and bandy clubs from London and Glasgow.

**1900**—The goal net is introduced in Canada.

**1902**—The first true ice hockey games in Europe are played at the Princes' Skating Club in Knightsbridge, England.

**March 4, 1905**—Two international games between Belgium and France are played in Brussels.

**1905**—Ice hockey games, with no unified set of rules, are played in Switzerland; hockey is played in Bohemia (Czechoslovakia) for the first time.

**1947**—Czechoslovakia becomes the first non-North American team to win the IIHF World Championship.

**November 8, 1948**—The entire Czechoslovakian national team dies in a plane crash, harming the nation's development after winning World Championship gold in 1947 and tying Canada en route to a silver medal at the 1948 Olympics.

**January 5, 1950**—The entire Soviet club team, VVS MVO (Air Force Moscow), is involved in a plane crash near Sverdlovsk (now Yekaterinburg). The team consisted of the best players in the Soviet Union.

**1950**—The entire Czechoslovakian team is arrested and charged with treason as it is about to board a plane to travel to London for the World Championship. The Czechs withdraw from the event, and most players are later given stiff prison sentences without any proof from the authorities of the charges.

**February 25, 1952**—Canada (Edmonton Mercurys) wins its sixth Olympic gold in seven events. It is Canada's last Olympic hockey gold medal for 50 years.

**March 15, 1953**—Sweden wins the IIHF World Championship for the first time, but only three teams finish the event held in Zurich and Basel, Switzerland.

**1954**—The Soviet Union enters the IIHF World Championship for the first time and strikes gold in Stockholm, Sweden.

**February 4, 1956**—The Soviet Union wins its first Olympic gold, in Cortina d'Ampezzo, Italy.

**March 5, 1957**—The largest hockey crowd to date, more than 50,000 spectators at Moscow's Lenin Stadium, watches Sweden win World Championship gold after a 4-4-tie against the Soviet Union.

**February 28, 1960**—The United States wins its first Olympic gold, at Squaw Valley, California, becoming the first host nation to win.

**March 12, 1961**—The Trail Smoke Eaters' World Championship gold by Canada in Geneva, Switzerland, is the nation's last for 33 years. It is also the final time a World Championship game is played outdoors. Games in Lausanne are played on an outdoor swimming pool.

**March 17, 1963**—The Soviet Union begins its streak of nine consecutive IIHF World Championship gold medals.

**1964**—Father David Bauer's National Team starts representing Canada in international play.

**February 17, 1968**—The Soviet Union wins its third Olympic gold, in Grenoble, France.

**April 22, 1972**—Czechoslovakia wins its first World Championship gold in 23 years and ends the Soviet Union's streak of nine consecutive world titles. This is the first year where there is both an Olympics and World Championship tournament.

**1977**—Canada re-enters the World Championship with a professional squad in Vienna, Austria, after a seven-year absence. Czechoslovakia becomes the first country other than Canada and the Soviet Union to win two consecutive World Championship gold medals.

**February 22, 1980**—The biggest upset in international hockey history: A collegian Team USA defeats the Soviet Union 4-3 at Lake Placid en route to a gold medal. The Soviet's silver breaks what would have been a streak of eight consecutive Olympic gold medals by Soviet Union/Russia.

**April 24, 1981**—The Soviet Union beats Sweden 13-1 in the most lopsided World Championship game to decide the gold medal and four months later defeats Team Canada 8-1 in the one-game Canada Cup final in Montreal, arguably the most crushing defeat in Canada's international hockey history.

**February 19, 1984**—The Soviet Union sweeps through the Sarajevo Olympics undefeated, claiming its sixth Olympic gold.

**1984**—Canada makes up for its 1981 defeat by winning this year's Canada Cup. Mike Bossy's dramatic overtime goal in the semi-final inflicts on the Soviets their first loss since Lake Placid 1980.

**May 3, 1987**—Sweden wins its first World Championship gold in 25 years, in Vienna, Austria.

**1987**—Canada wins the fourth Canada Cup after a three-game series against the Soviet Union where all games end with the same score, 6-5. Canada's Mario Lemieux and Wayne Gretzky dominate the series.

**February 28, 1988**—The Soviet Union wins its seventh and last Olympic hockey gold, in Calgary, Canada; NHLers play at the Olympics for the first time as seven players join Team Canada. Finland wins silver, its first Olympic medal.

**March 1990**—The first IIHF-sanctioned Women's World Championship takes place in Ottawa, Canada. Body-checking is still permitted in the game.

**May 10, 1992**—Sweden wins consecutive World Championship gold medals for the first time.

**February 23, 1992**—The Commonwealth of Independent States (CIS) – the former Soviet Union and the future Russia – wins Olympic gold in Albertville, France.

**May 2, 1993**—Russia wins its first World Championship gold, but it also marks the end of the Soviet Union/Russian dominance after 39 years.

**February 27, 1994**—Sweden wins its first Olympic gold, in Lillehammer, Norway, after Peter Forsberg's daring shootout goal against Canada, a goal so famous that it eventually becomes a postage stamp in Sweden.

**May 8, 1994**—Canada wins its first World Championship in 33 years, in Milan, Italy, becoming the first team to win gold in a penalty-shot shootout. Luc Robitaille is the hero in the final against Finland.

**May 7, 1995**—Finland becomes the seventh nation to win the IIHF World Championship gold as it defeats arch-rival Sweden in Stockholm. The tournament features no NHLers as a lockout forced a late start and finish to the season.

**1996**—The USA wins the inaugural World Cup of Hockey, which replaces the Canada Cup. It's the USA's biggest international success since the 1980 Olympic "Miracle on Ice."

**May 16, 1999**—Jan Hlavac becomes the first player to decide a World Championship gold medal game in overtime as Czechs defeat Finland in Lillehammer, Norway.

**May 13, 2001**—The Czech Republic becomes the first nation other than Canada and the Soviet Union to win three consecutive World Championships.

**February 24, 2002**—Canada ends a 50-year drought by winning Olympic gold in Salt Lake City. The country strikes a double as Canada's women also win.

**May 11, 2002**—Slovakia becomes the eighth nation ever to win the World Championship, in Gothenburg, Sweden.

**May 9, 2004**—Canada wins consecutive World Championship titles for the first time since 1959. The Canadians defeat Sweden in both 2003 and 2004.

**2006**—Sweden becomes the first country in international hockey history to win Olympic gold and the World Championship in the same year, capturing the titles in Turin and Riga, respectively. The Swedish women also make history by defeating the United States in a shootout in the semi-finals, earning a silver medal and marking the first time a women's final features a matchup other than Canada-United States.

**2006**—Canada's Sidney Crosby, at 18 years of age, becomes the youngest player ever to lead the World Championship in scoring.

**2007**—The World Championship in Moscow is the first IIHF's flagship event where a regulation-time win is awarded with three points.

**2008**—Canada hosts its first World Championship to mark the centenary of the IIHF. Quebec City (also celebrating its 400th anniversary) and Halifax host the 56 games and 16 countries.

**May 18, 2008**—Russia defeats Canada 5-4 in overtime of the gold-medal game to win World Championship gold for the first time since 1993.

**May 7, 2010**—A world record crowd of 77,803 in Gelsenkirchen, Germany watch the home side defeat the United States 2-1 in overtime in the first game of the 2010 World Championship.

**May 19, 2013**—After winning nine games in a row, Switzerland loses the gold-medal game to Sweden, 5-1, at the World Championship, its first silver since 1935.

# Triple Gold Club

These 26 players and one coach form the unique group that has won the IIHF World Championship, the Olympic Ice Hockey tournament, and the Stanley Cup. Being given credit with one of these honours requires the player to have participated in at least one game of the event. Players are entered chronologically by date when the final championship of the triple has been achieved. If two or more players complete their triple on the same date, priority is given to the player who was the first to win one of the three titles. If two or more players have identical accomplishments, priority is given to the player who completes the triple at the younger age.

*Canada's Mike Babcock is the only coach in IIHF history to win all three events that constitute the Triple Gold Club.*

## Triple Gold Club Notable Information

**TIMELINE**

**1926** Dunc Munro helped the Montreal Maroons win the Stanley Cup. He had previously played on Canada's gold medal Olympic team of 1924, becoming the first player to win these two honours during a career.

**1935** Vic Lindquist helped Canada win gold at the World Championship. He had previously played on Canada's gold-medal Olympic team in 1932, becoming the first player to win these two honours during a career.

**1939** Pat McReavy played on the Stanley Cup-winning Boston Bruins. He had previously helped Canada win World Championship gold in 1938, becoming the first player to win these two honours during a career.

**1958** Connie Broden made history by winning World Championship gold (Canada) and the Stanley Cup (Montreal Canadiens) in the same year.

**1980** Ken Morrow became the first player to win Olympic gold (United States) and the Stanley Cup (New York Islanders) in the same year.

**1980** Swedes Stefan Persson and Anders Kallur became first European-trained players to win the Stanley Cup (NY Islanders). Neither player ever won a World Championship or Olympic gold, however.

**1987** For the first time, players who played in the NHL went to the World Championship at the end of the season and won gold. Sweden's victory was historic for Hakan Loob (Calgary), Mikael Andersson (Buffalo), Tomas Sandstrom (NY Rangers), and Anders Carlsson (New Jersey).

**2006** Sweden became the first nation to win Olympic gold and World Championship gold in the same year. Eight players completed this historic double: Henrik Zetterberg, Jorgen Jonsson, Kenny Jonsson, Niklas Kronwall, Mika Hannula, Mikael Samuelsson, Ronnie Sundin, and backup goaltender Stefan Liv.

**2007** Scott Niedermayer (CAN) wins the Stanley Cup with Anaheim, becoming the only TGC member to have won the Stanley Cup with two teams (New Jersey).

**2010** The IIHF honoured the first 22 members of the Triple Gold Club at a special ceremony in Vancouver during the Olympics. All 22 players attended the landmark presentation.

**2010** Eric Staal won Olympic gold with Canada, thus completing TGC honours in the minimum possible number of events, one for each honour. As well, Mike Babcock became the first—and still only—coach to achieve TGC status after the Olympic victory.

**2010** Jonathan Toews became the youngest TGC member after Chicago won the Stanley Cup. He was only 22 years and 41 days old.

**2015** Sidney Crosby (CAN) joins the TGC with World Championship gold, becoming the only player to do so as team captain of all three TGC honours.

# EVENT INFORMATION

## Major Rule Changes, 2014-18

- The offensive/defensive zones will be increased from 21.33 metres to 22.86 metres.
- The recommended dimensions of the rink will change. For length, 60-61 metres will now be standardized at 60 metres, and the width changes to 26-30 metres from 29-30 metres.
- Hybrid icing as used in the NHL will be adopted for all IIHF Championships and qualifications.
- During a penalty shot or penalty-shot shootout, both the "spin-o-rama" and lacrosse type moves are no longer permitted.
- At faceoffs, the player of the defending team in his defending half of the rink shall place his stick on the ice first followed immediately by the player of the attacking team

## New Overtime Procedure for 2017-18

- Teams will not change ends for the overtime period.
- In preliminary-round games, there is no change. A 3-on-3 overtime period of up to five minutes will be played (following a three-minute intermission during which time the ice will be shoveled—no change).
- In playoff games and the bronze medal games, the same procedure applies but the overtime period will be ten minutes, 4-on-4 (no change).
- The gold-medal game has an overtime period of up to 20 minutes but instead of a 5-on-5 it will be a 4-on-4 (following a 15-minute intermission including ice resurfacing—no change).
- The penalty-shot shootout will be standardized to five shots for each side during all stages of tournament play.

## IIHF Referees and Linesmen, 2017-18

# Current World Championship Regulations

**TIE BREAKING SYSTEM FOR IIHF CHAPMIONSHIPS**
The tie-breaking system for two teams with the same number of points in a standing will be the result of the game between the two teams, the winner of the game taking precedence.

Because the three-point system does not allow a game to end in a tie, the following tie-breaking procedure is applicable when three or more teams are tied in points in a Championship standing:

Should three or more teams be tied on points, then a tie-breaking formula will be applied whereby a sub-group amongst the tied teams is created. This process will continue until only two or none of the teams remain tied. In the case of two tied teams remaining, the result of the game between the two would then be the determining tie-breaker. In the case of none of the teams being tied, the criteria specified in the respective step applies.

Step 1: Taking into consideration the games between each of the tied teams, a sub-group is created applying the points awarded in the direct games amongst the tied teams from which the teams are then **ranked** accordingly.
Step 2: Should three or more teams still remain tied in points then the better **goal difference** in the direct games amongst the tied teams will be decisive.
Step 3: Should three or more teams still remain tied in points and goal difference then the highest number of **goals scored** by these teams in their direct games will be decisive
Step 4: Should three or more teams still remain tied in points, goal difference, and goals scored, the results between each of the three teams and the closest best-ranked team outside the sub-group will be applied. In this case, the tied team with the best result (1. points, 2. goal difference, 3. more goals scored) against the closest best ranked-team will take precedence
Step 5: Should the teams still remain tied, then the results between each of the three teams and the next highest best-ranked team outside the sub-group will be applied.
Step 6: Should the teams still remain tied after these five steps have been exercised then Sport considerations will be applied and the teams will be ranked by their positions coming into the Championship (seeding).

**MEDAL ROUND OVERTIME PROCEDURE**
- In case of a tie at the end of regulation time in a quarter-final, semi-final, and bronze-medal game, there will be a three-minute intermission followed by a 10-minute, sudden-death overtime period. The teams will defend the same goals as in the third period. The team which scores first is the winner.
- In the gold-medal game there will be a full intermission during which the ice will be resurfaced followed by a 20-minute sudden-death overtime period. The teams will change ends. The team which scores first is the winner.
- If no goal is scored during the sudden-death overtime, there will be a penalty-shot shootout (PSS) competition.

**FOUR-ON-FOUR OVERTIME PROCEDURE: PENALTIES**
1. If a team is penalized in overtime, the teams will play 4-on-3. Coincidental penalties do not affect the on-ice strength when assessed in overtime.
2. In overtime, if a team is penalized such that a two-man advantage is called for, then the offending team will remain at three (3) skaters while the non-offending team will be permitted a fifth skater. At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the team will revert back to either a 4-on-4 or a 4-on-3 situation, as appropriate.
3. If there is a man advantage which carries over from regulation to overtime, the above criteria will be applied at the start of the overtime. If at the end of the regulation, if the teams are 5-on-4, overtime begins at 4-on-3.
4. When regulation time ends with a 5-on-3, teams will begin the overtime with 5-on-3. At the end of penalties, due to continuous action, player strength may get to 5-on-5 or 5-on-4. At the first stoppage, player strength must be adjusted to 4-on-4 or 4-on-3.
5. If, at the end of regulation time, teams are 3-on-3, overtime starts at 3-on-3. Once player strength reaches 5-on-4 or 5-on-5, at the next stoppage player strength is adjusted to 4-on-3 or 4-on-4, as appropriate.
6. If, at the end of regulation, teams are 4-on-4 with a player or players in the box serving non-coincidental penalties, overtime starts 4-on-4 and players exit the penalty box as normal to 5-on-4 or 5-on-5. At the first stoppage of play, teams are adjusted to 4-on-3 or 4-on-4, as appropriate.

**THREE-ON-THREE OVERTIME PROCEDURE: PENALTIES**
- At no time will a team have fewer than three players on the ice. This may require a fourth or fifth skater to be added in the event penalties are assessed.
- When regulation time ends with a 5-on-3, teams will start the overtime period 5-on-3. Once player strength reaches 5-on-4 or 5-on-5, player strength is adjusted at the next stoppage of play to 4-on-3 or 3-on-3, as appropriate.
- When regulation time ends and teams are playing 4-on-4, teams will start overtime 3-on-3.
- If, at the end of regulation time, teams are 3-on-3, overtime starts 3-on-3. Once player strength reaches 4-on-4, 5-on-4 or 5-on-5, player strength is adjusted at the next stoppage of play to 3-on-3 or 4-on-3, as appropriate.
- If a team is penalized in overtime, the teams will play 4-on-3. If both teams incur minor penalties at the same stoppage of play (with no other penalties in effect), teams will continue to play 3-on-3.
- In overtime, if a team is penalized such that a two-man advantage occurs, teams will play 5-on-3. At the first stoppage of play after the two-man advantage is no longer in effect, the numerical strength of the teams will revert back to 4-on-3 or 3-on-3, as appropriate.

# IIHF Eligibility Regulations

To play in any IIHF World Championship, the Olympic ice hockey tournament, and the qualifications to these competitions, players must fulfill the following qualification requirements:

1. Each player must be under the jurisdiction of an IIHF member national association;
2. Each player must be a citizen of the country he represents.

**ACQUIRING A NEW NATIONAL ELIGIBILITY (THE "TWO-YEAR" CASE)**
When a player has changed his citizenship or has acquired another citizenship and wants to participate for the first time in an IIHF competition representing his new country he must:
a) Prove that he has participated for at least two consecutive hockey seasons and 16 consecutive months (480 days) in the national competitions of his new country after his 10th birthday during which period he has neither transferred to another country nor played ice hockey within any other country. Female players need to have participated on a consistent basis for at least one hockey season and have been member of the new national association for at least 12 consecutive months during that period;
b) Have an international transfer card (ITC) that shows the transfer to the national competition of his new country and which was approved and dated at least two years before the start of the IIHF competition in which he wishes to participate.

**CHANGE OF NATIONAL ELIGIBILITY (THE "FOUR-YEAR" CASE)**
A player who has previously participated in IIHF competition can switch national eligibility (but only once in a player's life) if:
a) He is a citizen of the new country of his choice;
b) He has participated for at least four consecutive years (1,460 days) in the national competitions of his new country, during which period he has neither transferred to another country nor played ice hockey within any other country and has not played for his previous country in an IIHF competition during this four-year period;
c) He has an international transfer card (ITC) that shows the transfer to the national competition of his new country and which was approved and dated at least four years before the start of the IIHF competition in which he wishes to participate

The eligibility criteria above, as defined in Bylaw 204 of the IIHF Statues and Bylaws, were adopted by the 2014 IIHF Annual Congress. Any earlier eligibility regulations, which differ from the ones above, cannot be invoked for any current eligibility issues.

# Player Entry Protocol

Teams submit the names of the participating players at the first Championship Directorate on the first day of the tournament. The maximum number of players allowed on a Team Registration Form at the beginning of the event is 20 skaters and 3 goalies. The minimum is 15 skaters and 2 goalies.

At the first Directorate meeting on the day of the start of a tournament, the teams must name at least the minimum number of 15 skaters and 2 goalkeepers. The players entered must be present at the championship venue by the time of the Directorate meeting.

The remaining players up to the allowed maximum of 22 + 3 (for World Championship, top level) must be submitted for players' control two hours before any of the following championship games. During a game, a team may enter (dress) 20 skaters and 2 goalkeepers on the Official Game Sheet, with the emergency goalkeeper standing by if a goalie entered to the Official Game Sheet is unable to play.

# Doping Control

Doping controls were first introduced by the IIHF at the 1969 Congress.

**HOW IT WORKS**
After every game sanctioned by the IIHF, a player from each team is taken directly from the ice to the doping-control station by the medical supervisor for that game. The player is not permitted to leave the room until submitting a sample. In IIHF events, IIHF staff handles doping, but in Olympics events it is IOC officials who handle all doping matters. At IIHF events, beer is provided to the athletes (in addition to water and juice), but at the Olympics beer is not provided (alcohol in the blood can result in a positive test at some Olympics events, although not hockey).

In the event of a positive test, the player is automatically suspended for the remainder of the tournament. The goals and points earned by the doped player's teams become invalid unless the opposite result is more favourable for the non-offending team.

**NOTABLE DOPING INFRACTIONS**

**February 8, 1972**—Alois Schloder (FRG) tested positive and was suspended the rest of the tournament. He was allowed to play at the World Championship several weeks later because it was discovered that his doctor has prescribed drugs for an illness and Schloder was found not to be at fault for "doping."

**April 6, 1974**—Ulf Nilsson (SWE) tested positive for ephedrine after his team's 4-1 win over Poland. The score was reversed to Poland 5-Sweden 0.

**April 12, 1974**—Goalie Stig Wetzel (FIN) tested positive for ephedrine after his team's 5-2 win over Czechoslovakia. The score was reversed to Czechoslovakia 5-Finland 0.

**February 10, 1976**—Frantisek Pospisil (TCH) failed a doping test after his team's 7-1 win over Poland. The score was reversed to Poland 1- Czechoslovakia 0.

**February 18, 1988**—Forward Jaroslav Morawiecki (POL) tested positive for testosterone after his team beat France, 6-2. Morawiecki was banned from international competition for 18 months and France was officially awarded a 2–0 win, but not the points in the standings.

**April 18, 1989**—Corey Millen (USA) tested positive after his team's 8-2 loss to Canada. The score was changed to 8-0.

**May 2, 1994**—Bill Lindsay (USA) tested positive after his team's 7-2 loss to Finland. The score was changed to 7-0.

**January 21, 2002**—Mattias Ohlund (SWE) tested positive for acetazolomide in out-of-competition testing, but no suspension was handed down because he proved this drug was necessary for recovery from several serious eye operations.

**February 23, 2002**—Vasili Pankov (BLR) tested positive for a nandrolene given him by a team doctor.

**April 30, 2005**—Timofei Filin (BLR) tested positive for nandrolene after his team's 2-1 loss to Slovakia. He was immediately removed from the Belarus team roster and was suspended from international competition for two years.

**May 1, 2005**—Olexander Pobyedonostsev (UKR) tested positive for nandrolene after his team's 3-2 loss to Sweden. He was immediately removed from the Ukraine team roster and was suspended from international competition for two years.

**February 23, 2014**—Nicklas Backstrom (SWE) was suspended just hours before the gold-medal game at the 2014 Olympics after testing positive for pseudoephedrine found in a common allergy medication he was taking. No further action was taken.

# Video Goal Judge Application

The use of the video replay of disputed goals is approved by the IIHF. All available television pictures must be provided and used by the video-goal judge. The following are the only situations that are subject to video-goal judge review:

1. To determine if the puck has completely crossed the goal line.
2. To determine if the puck entered the net prior to or after the goal frame was dislodged.
3. To determine if the puck entered the net prior to or after expiration of time at the end of a period or the game.
4. To determine if the puck was directed into the net by a hand or kicked into the net by a skate.
5. To determine if a puck deflected into the net off a game official.
6. To determine if the puck was struck with a high stick, above the height of the crossbar, by an attacking player, prior to the puck entering the net.
7. To establish the correct time on the official game clock at the point that the puck completely crossed the goal line, provided that the game time is available on the video-goal judge's monitor.

The review can be requested only by the video-goal judge or a referee.

**VIDEO-GOAL JUDGE PROCEDURE**

- When the referee requests a video review of a disputed goal, he contacts the video goal judge from the scorekeepers' bench using a telephone.
- When the video goal judge requests a review, he will contact the official scorekeeper bench using the telephone during the first stoppage of play.
- If the video review is inconclusive, the video goal judge will report this to the referee who will then make the final decision.
- A team cannot request a video review of any play.
- If the puck enters the net and play is stopped, the referee or the video-goal judge asks for a review during this stoppage. If there is no review during this stoppage, the result is final and no review will be permitted after play has resumed.
- If the puck enters the net and play continues, the review will take place during the first stoppage after the incident. If no review is performed during the first stoppage, then no review will be permitted after play has resumed.
- When it is indicated that there is to be a video review, all players must go to their respective team benches.
- A video review may be called even though the first stoppage of play signals the end of a period or the end of a game.

# Penalty-Shot Shootout Procedure

If, following the completion of regulation time in any IIHF Championship game and the score of such a game is tied, the teams will play either a 3-on-3 or 4-on-4 overtime period. The team scoring first is declared the winner.

If no goal is scored in the overtime period then the IIHF Penalty-Shot Shootout Procedure will apply. The following procedure will be utilized:

- Shots will be taken at both ends of the ice unless the referees deem that one end of the ice is in poor enough condition to disadvantage one team, in which case only one end will be used. The longitudinal centre section of the rink will be dry-scraped prior to the Penalty-Shot Shootout.
- The procedure will begin with three or five (depending on the game) different shooters from each team taking alternate shots. The players do not need to be named beforehand. Eligible to participate in the Penalty-Shot Shootout will be the four goaltenders and all players from both teams listed on the official game sheet
  except any player(s) whose penalty had not been completed when the overtime period ended. This player(s) must remain in the penalty box or in the dressing room. Also, players serving penalties imposed during the Penalty-Shot Shootout must remain in the penalty box or in the dressing room until the end of the procedure.
- The Referee will call the two captains to the Referee Crease and flip a coin to determine which team takes the first shot. The winner of the coin toss will have the choice whether his team will shoot first or second.
- The goaltenders shall defend the same goal as in the overtime period.
- The goaltenders from each team may be changed after each shot.
- The shots will be taken in accordance with Rule 177 of the IIHF Official Rule Book.
- The players of both teams will take the shots alternately until a decisive goal is scored. The remaining shots will not be taken.
- If the result is still tied after three or five shots by each team, the procedure shall continue with a tie-break shootout by one player of each team, with a reversed shooting order. The same player can also be used for each shot by a team in the tie-break shootout. The game shall be finished as soon as a duel of two players brings the decisive result.
- The Official Scorekeeper will record all shots taken, indicating the players, goaltenders, and goals scored, but only the decisive goal will count in the result of the game. It shall be credited to the player who scored the decisive goal and to the goaltender who surrendered this goal.
- If a team declines to participate in the Penalty-Shot Shootout procedure the game will be declared as a loss for that team and the other team will be awarded three points for a win. If a player declines to take a shot, it will be declared "no score" for his team.

# IIHF Media Guidelines and Access Policy

**GENERAL GUIDELINES FOR ACCREDITED MEDIA**

The media centre, the press tribune in the arena, the mixed zones, and the media interview rooms are areas for working press only and officials associated with media relations and media services. We respectfully ask you observe the following rules in these working areas:

1. The wearing of national team sweaters or significant fan apparel in designated working areas for media is improper. Accredited journalists who do so will be asked either to remove the apparel or leave the area.
2. Excessive cheering and "fan behaviour" in the press tribune and media centre are strictly forbidden. Such conduct is unprofessional and disruptive for working media.
3. Accredited journalists are not allowed to ask players for autographs at any time in any of the above-mentioned designated media working areas.
4. Accredited journalists are not allowed to switch accreditation passes with representatives of other media outlets in order to gain unauthorized access to any part of the arena or for any other purpose.

**Breach of these rules may result in the media accreditation being revoked.**

**GENERAL ACCESS POLICY**

All accredited media have access to cover all team practices, game-day skates, and games. All accredited media have access to the media centre, the media tribune (press box), the mixed-zone area, and the media interview room.

**POST-GAME MIXED ZONE**

Players and assistant coaches will be available in the mixed zone approximately ten (10) minutes after the end of the post-game ceremonies. The general media access period is 30 minutes, starting from the moment the first player arrives. Media officers of the teams will take requests from the media for interviews of players and assistant coaches and will make them available in the mixed zone.

All players are available to the media during the general access period. Up to five players are required to appear in the mixed zone. Media officers are advised that those players for whom the greatest number of requests is made should be available in the mixed zone. If, after a reasonable time, the team's media officer determines that there is no media interest in particular players, they may be excused.

The media officer should inform media whether one of the requested players is selected for doping control. That player will be made available to media upon the conclusion of the doping control procedure.

Rights holders (TV and radio) have first priority to player interviews in the mixed zone area and are allowed to interview players immediately after they have come off the ice.

**POST-GAME PRESS CONFERENCES**
A media conference with both head coaches will take place after each game in the media interview room no later than 15 minutes after the conclusion of the game. Translation to English is mandatory, and translation to other languages will be provided depending on the availability of interpreters. Upon special request, a player can be added to the post-game press conference.

**POST-PRACTICE INTERVIEWS**
All interview requests after practices should be forwarded to the team's media officer or team host. Interviews will take place in the mixed zone of either the main rink or the practice facility. The general media access period after non-game day practices is 30 minutes, starting from when the first player arrives. Any player who leaves practice prior to its conclusion will remain available for the general media access period unless alternate arrangements are made by the team's media officer.

Coaching staff and the media officer are entitled to limit game-day interviews to 15 minutes. Interview requests on other occasions during the championship should be addressed to the team's media officer. Players and coaches have the right to decline requests for impromptu interviews in other areas such as the team's hotel.

**GENERAL INFORMATION**
Following a practice or game, players who must remain in the dressing room for medical treatment for any portion of the access period must be available in the mixed zone as soon as possible after the treatment has been completed. When a player's medical treatment takes longer than 30 minutes, the team's media relations officer should make appropriate arrangements for the player to meet the media.

**RIGHTS-HOLDER INTERVIEWS IN THE MIXED ZONE**
All pre-game and post-game interviews, including those during the intermissions by the rights-holders in the mixed zone, must take place in front of the rights-holders interview area or in front of the official IIHF World Championship backdrop area.

**TV & RADIO FLASH INTERVIEWS**
The IIHF recommends that teams participate in flash interviews after the first and second periods if requested by the broadcaster. The maximum time allowed for a flash interview is 60 seconds. The interviews will take place directly behind the player bench area.

# www.IIHF.com

After a record-breaking year in 2015 the IIHF's digital platforms continued to grow in 2016 with the 2016 IIHF Ice Hockey World Championship as the highlight.

During the event in Russia, www.IIHF.com was accessed during 8,595,931 sessions – a 25.7 per cent increase over 2015 – and had over 57 million page views, another record. The numbers increased both on computers and on mobile devices.

The bilingual website was accessed from all over the world with Russia, Canada, Finland, United States, and Latvia being the top-five countries. It became the virtual entry point to the IIHF's digital world with a live ticker, stream, game stories and highlights, news, interviews, photos and stories, and videos behind the scene.

The 2016 IIHF mobile app, available in several languages and on three platforms, was downloaded for Android and iOS over 385,000 times during the event and created almost 13.6 million user sessions during the event. This handy tool accompanied many fans during the Worlds and other IIHF events who were able to follow the World Championship program live on their device.

For the #IIHFWorlds two new tools were introduced. One was the Fan Guide to the 2016 IIHF Ice Hockey World Championship which included local information, transportation information, and a travel community to improve the game experience for visiting fans.

And for the first time the IIHF ran a Fantasy Game during the Worlds where fans were able to virtually compete with their own teams and win great prizes.

The strong collaboration with the IIHF's exclusive marketing partner for the IIHF Ice Hockey World Championship, Infront Sports & Media, on the digital media platforms entered its second season and saw even more moving images become available on computers and mobile devices for hockey fans around the world supplementary to the broad TV coverage.

Some 260 videos were produced and published before, during, and after the event and viewed 19 million times on the various platforms – a 37 per cent increase over the year before – with anything from highlights to animations explaining the game, players testing their Russian language skills, and following a team with a GoPro.

Many fans in countries with no exclusive TV rightholders made use of the live stream to watch games not shown on TV in their territories while they were able to see the most recent stats and news on their computers or mobile devices.

The IIHF reached several milestones in social media during the World Championship month and by July was followed by 245,000 people on Facebook, by 101,000 on Twitter, and by over 55,000 on Instagram.

With the World Championship taking place in Russia, the IIHF did not only provide plenty of content in Russia from the two venues – Moscow and St. Petersburg – but also joined the social network VK.com (also known as VKontakte), which is the most popular social network in the Russian-speaking area. The account, named "iihfhockey" as on the other networks, reached the milestone of 100,000 followers and consisted of content exclusively in Russian.

In total over two million people were engaged on the IIHF's social media platforms during the World Championship, and tens of millions of impressions from the World Championship were created on the various platforms.

During the 2015/2016 season the IIHF communities on Facebook (+29.3%) and Twitter (+22.2%) continued to grow while the number of followers on the multimedia app Instagram more than tripled.

Other popular events in the IIHF's digital world were the 2016 IIHF World Junior Championship for which the website www.worldjunior2016.com was run in English and Finnish; the busy spring time with popular events such as the U18 World Championship; the Women's World Championship and the Division I tournaments for the men's national teams; the Youth Olympic Winter Games; the Olympic Qualification and campaigns such as the World Girls' Ice Hockey Weekend that reached hundreds of thousands of people in October.

Thanks to the co-operation with several organizing committees, several event pages were available in other languages, including Finnish, French, Polish, and Russian, and a record number of IIHF events had video and streaming content in the 2015/2016 season.

**IIHF.COM WORLD CHAMPIONSHIP WRITERS**
**Lucas Aykroyd** is a Vancouver writer who has covered every IIHF World Championship and Winter Olympics since 2000, as well as other IIHF tournaments, the NHL, and the WHL.

# TOURNAMENT RESULTS

# Olympics, Men

## GAMES OF THE VIIth OLYMPIAD
## April 23-September 12, 1920
## (Winter Olympics held April 23–29, 1920)
## Antwerp, Belgium

**Final Placing**

Gold .....Canada
Silver .....United States
Bronze ....Czechoslovakia
4th .....Sweden
5th .....Switzerland
6th .....France
7th .....Belgium

**Tournament Format**

The Bergvall system of elimination was employed, that being a unique knockout format between the nations in the first round. Those who won went on to compete for the gold medal; those who lost games to the champion—Canada—played another knockout series for the silver; and those who lost games to the silver medalists—the United States—went on to play for the bronze. France received a bye in the first playdown and thus qualified right away for the gold medal round.

All ten European teams were placed in three divisions to play round-robin preliminary matches. One team from each division moved on to the medal round. Because of the team's universally acknowledged superiority, Canada received a bye directly into the medal round, which again was set up as a round-robin schedule for the four finalists.

**Tournament Format**

Teams received two points for a win and one for a tie. With just four teams entered — Canada, Germany, Poland, United States — each team played a double round-robin, two games against each opponent. Each game consisted of three, 15-minute periods. A two-referee system was used and all hockey matches were officiated by the same two men, Lou Marsh of Canada and Don Sands of the United States.

**Tournament Format**

The 15 entries were divided into four divisions (three of four teams, one of three teams) and played a round-robin series within each division. The top two countries then advanced to a semi-final round and the top two from that advanced to the finals. Any ties in the groupings would be decided by total number of goals scored in the Games. Games consisted of three 15-minute periods and each team could dress only ten players. Three substitutes per game were allowed.

An extremely important, complex rule for the final round stated that any team that had beaten another in a previous round did not have to play against that same team in the finals. Instead, they were automatically given two points for the earlier win (the one win, therefore, counted two points in both the semi-final and final rounds for Britain at these Olympics). Thus, Canada's loss to Great Britain in the semi-finals virtually assured them of losing the gold medal, for they couldn't play that team again in the final round to avenge the earlier defeat.

**Tournament Format**

With nine teams entered, all were placed together with a simple round-robin format used as a schedule. Teams received two points for a win, one for a tie. In the final game, an overtime period would be played, but no overtime would be played throughout the balance of the round-robin. Teams could take 15 players to the Olympics, but only 12 (including a spare goalie) could dress for any one game. For the first time, all games now consisted of three 20-minute periods. In the case of a tie in the standings after the round-robin, goal average would decide the final positions. This meant dividing the goals scored by goals against. For instance, Canada scored 69 and gave up 5 for a figure of 13.8. The Czechs, by comparison, scored 80 but surrendered 18 for an average of just 4.3. That is how Canada won the gold in St. Moritz.

**Tournament Format**

All nine countries were placed in a single division, and the schedule was again a simple round-robin format, each nation playing all others once. There was no overtime in the event of a tie after 60 minutes of regulation play. If two teams were tied in the standings and a medal were at stake, they would play an extra playoff game. In case of a tie between three teams, the team with the better goal differential (goals allowed subtracted from goals scored) would be given the better placing in the final standings.

*West Germany represented Unified Teams of Germany

**Tournament Format**

Ten teams were divided into three groups, each playing a round-robin schedule within that group. The top two teams from each section then advanced to a six-team finals round. The team with the most points among the six (two points for a win, one for a tie) won the gold, with goal differential being the deciding factor in the event of a tie. If still tied, goals against average would be the last method to decide the winner. Tie games after 60 minutes of play would not be decided by overtime.

**Tournament Format**

The format remained unchanged from the one used in Cortina d'Ampezzo in 1956. The nine competing countries were divided into three pools of three teams, each pool playing round-robin games with the others in their division. The top two teams from each pool then advanced to a six-team finals round-robin, the gold medal going to the team with the most points (two for a win, one for a tie). In the event of a tie in the standings, goal differential would decide the winner.

*West Germany represented Unified Teams of Germany

**Tournament Format**

A simple round-robin format was used, the winner being decided by points (two for a win, one for a tie, as always). In the event of a tie in the standings, the team with the better goal differential (goals allowed subtracted from goals scored) would finish ahead. If this calculation did not yield a winner, head-to-head wins would be decisive followed by goal average (goals scored divided by goals allowed).

**Tournament Format**

The top eight teams were grouped into a medal round section, each playing a round-robin schedule. The top team in the standings (two points for a win, one for a tie) would win the gold medal. In the event of a two-way tie, the winner of the head-to-head game would get the gold. If there were a tie between more than two teams, goal differential (goals against subtracted from goals scored) would be the deciding factor.

**Tournament Format**

The six teams were grouped into a medal round section, each playing a round-robin schedule. The top team in the standings (two points for a win, one for a tie) would win the gold medal. In the event of a two-way tie, the winner of the head-to-head game would get the gold. If there were a tie between more than two teams, goal differential (goals against subtracted from goals scored) would be the deciding factor.

**Tournament Format**

The 12 teams were divided into two groups of six, all teams playing a round-robin schedule within each group. The top two teams from each group then advanced to a four country round-robin medal round with the results from the qualifying round between qualifying teams counting in the finals round as well. In the event of a tie in the preliminary round standings, head-to-head results would be the first determining factor. If that game were a tie, then overall goal differential would decide the issue.

The 12 teams entered in the Olympics were divided into two groups of six and then played a round-robin schedule within each division. The top three teams in each pool then advanced to a medal round in which all previous results against opponents in the medal round counted. The other teams were placed in another pool to determine 7th–12th place rankings. In the case of a tie in the final standings, goal differential would be the deciding factor.

**Tournament Format**

The 12 competing nations were divided into two pools of six teams each and played a round-robin schedule within each group. The top four teams from each then advanced to a playoff round elimination quarter-finals. The top team in group A played the fourth team in group B; the top team in group B played the fourth team in group A; the second team in group A played the third team in group B; and, the second team in group B played the third team in group A. The elimination play-offs (a quarter-finals, semi-finals and finals) represented a new way to bring excitement to the Olympics.

In case of a tie in the standings in the preliminary round, goal differential only in games played between those teams that were tied would be the deciding factor (for example, Canada tied with Unified Team and Czechs but wound up on top). In the elimination playoff round, there would be a 10-minute sudden-death overtime period, then a penalty shot-style shootout after 70 minutes if the game were still tied.

**Tournament Format**

The format was the same as that for the 1992 Olympics: the 12 competing nations were divided into two pools of six teams each and played a round-robin tournament within each group. The top four teams from each group then advanced to a playoff elimination round.

In the case of a tie in the standings in the preliminary round, goal differential in games played only between those teams that were tied would be the deciding factor (in group B, for instance, Canada was given second place over Sweden because it had beaten the Swedes 3–2. In group A, with six points each, Germany, Czech Republic, and Russia were tied, but their ranking reflected the goal differentials (4–3 for Germany, 4–4 Czech Republic, and 6–7 for Russia). In the elimination round, a ten-minute overtime period would be followed by a shootout until a winner was decided.

**Tournament Format**

To allow for NHL participation, the tournament was divided into three distinct stages. The preliminary stage featured the eight lowest ranking teams to qualify for the Olympics. These eight were divided into two groups of four teams each and played a round robin series of games within each group. The top team from each then advanced to the main draw which featured the "big six" of Canada, Russia, Czech Republic, Sweden, Finland, and United States. Again, the eight teams were put into two groups of four and played a round robin within each.

To ensure quality, this stage did not eliminate any teams. Instead, it allowed the players traveling halfway around the world from the NHL a chance to acclimatize to the time difference and play three games with new teammates. The positions of the teams then determined the quarter-finals matchups. The top team in one group played the fourth team in the other, and second place played third place in crossover games as well. This led to semi-finals and finals to determine medal winners.

**Qualification**

The top nine teams after the 2008 World Championship automatically qualified for Vancouver in 2010. The remaining three teams (Germany, Latvia, Norway) won their groups in final qualification games.

**Tournament Format**

For the third year of NHL participation the format changed slightly. Gone was the first round of games and instead all 12 nations started playing at the same time. Two groups of six teams played a round robin within each group, the top four from each advancing to a quarter-finals playoffs of crossover elimination games.

**Tournament Format**

All 12 teams were placed in three groups of four teams each and played a round robin series of games within each group. The teams were then placed in one standings, the top four teams receiving byes to the quarter-finals. Teams 5 through 12 played a qualification round, the winners also advancing to the quarter-finals, the losers being eliminated. The team ranked 5 played the team ranked 12, the team ranked 6 played the team ranked 11, and so on. Once the quarter-finals were set, the rest of the tournament was an elimination series of games until the semi-finals. Those winners played for the gold medal, and the losers played for bronze.

**Final Placing**

| | |
|---|---|
| Gold .....Sweden | Bronze....Switzerland |
| Silver .....West Germany | 4th .....Czechoslovakia |

**Tournament Format**

Each team was supposed to play every other twice, in a double round robin, but when the Czechs withdrew the tournament became a four-game series for each nation. All Czech results were not counted, though the scores are listed below.

**Results & Standings**

| | GP | W | T | L | GF | GA | P |
|---|---|---|---|---|---|---|---|
| Sweden | 4 | 4 | 0 | 0 | 38 | 11 | 8 |
| West Germany | 4 | 1 | 0 | 3 | 17 | 26 | 2 |
| Switzerland | 4 | 1 | 0 | 3 | 9 | 27 | 2 |
| Czechoslovakia* | 4 | 3 | 0 | 1 | 32 | 15 | 6 |

*Czechoslovakia withdrew after playing only four games because of the death of President Klement Gottwald. As a result, the official standings omit all results involving the Czechs.

*demoted to B Pool for 1993

**Tournament Format**

For the first time, a full playoff format was used. Teams played round-robin series within each of two groups, the top four advancing to one-game elimination quarter-finals games. The bottom teams in each group played to see which would be relegated for the following year. The quarter-finals winners advanced to a semi-finals, and those winners to a gold-medal game. The semis losers played for the bronze medal.

**Tournament Format**

Teams played round-robin series within each of two groups, the top three advancing to a medal round round robin with scores between teams in that group carrying over from the preliminary round. The bottom three teams in each group played in another round robin to see which would be relegated for the following year. The top two teams of the medal round played for the gold medal in a best two-of-three while the third and fourth place teams played one game for the bronze medal.

+Far East qualifier
^promoted from B Pool in 1997
*demoted to B Pool for 1999

**Tournament Format**

For the first time, there were 16 teams in the tournament, divided into four groups of four teams each for the Preliminary Round. The top two from each group advanced to a Qualification Round which made them eligible for medals. The third place teams were put in another group for placement, and the bottom four were placed according to record, the last two being demoted. In the next round, the top two from each group advanced to a semi-finals round, the winners playing for gold, the losers for bronze.

^promoted from B Pool in 2000
*demoted to Division I for 2002

**Tournament Format**

There were 16 teams in the tournament, divided into four groups of four teams each for the Preliminary Round. The top two from each group advanced to a Qualification Round which made them eligible for medals. The third place teams were put in another group for placement, and the bottom four were placed in a relegation pool, the last two being demoted. In the next round, the top two from each group advanced to a semi-finals round, the winners playing for gold, the losers for bronze.

+Far East qualifier
^promoted from Division I in 2002
*demoted to Division I for 2004

**Tournament Format**

There were 16 teams in the tournament, divided into four groups of four teams each for the Preliminary Round. The top two from each group advanced to a Qualification Round which made them eligible for medals. The third place teams were put in another group for placement, and the bottom four were placed in a relegation pool, the last two being demoted. In the next round, the top two from each group advanced to a semi-finals round, the winners playing for gold, the losers for bronze.

*Promoted from Division I in 2011; Demoted to Division I for 2013

**Tournament Format**

A new format was adopted at the same time as a new hosting structure was used. Finland and Sweden acted as co-hosts through to the quarter-finals, after which the remaining games (semi-finals, medal games) were played only in Helsinki. The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The bottom four teams didn't play again, the relegation round series having been abolished. The top team played the fourth-place team within each group for the quarter-finals, and the semi-finals saw teams cross over.

^promoted from Division I-A in 2012
*demoted to Division I-A for 2014

**Tournament Format**

Finland and Sweden again acted as co-hosts through to the quarter-finals, after which the remaining games (semifinals, medal games) were played only in Stockholm. The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The bottom four teams didn't play again, the relegation round series having been abolished. The top team played the fourth-place team within each group for the quarter-finals, and the semi-finals saw teams cross over.

^Promoted from Division I-A for 2017
*Demoted to Division I-A for 2018

**Tournament Format**

The 16 teams were divided into two groups of eight, and each group played a round robin. The last team in each group was demoted to Division I and only the top four from each group advanced to the playoffs. The bottom four teams didn't play again. The top team played the fourth-place team within each group for the quarter-finals, and the semi-finals saw teams cross over.

**Tournament Format**

Eight countries were placed in two divisions of four teams each. All teams played a round-robin format within each division (three games each). The top two advanced to a four team medal round, the bottom two to a consolation round. Results from the preliminary round between teams that ended up in the same division in the next round were carried over so that no team played twice against any other in the tournament.

*Promoted from B Pool in 1980; Demoted to B Pool for 1982

**Tournament Format**

The same method was used in 1981 as the previous year. A preliminary round robin was set up in two divisions of four nations each. The top two advanced to a medal round robin, the bottom two to a consolation round. One important factor that came into play this year was a tie in the standings, with goal differential being the deciding factor. In the preliminary round, both Canada and Czechoslovakia had three points, but Canada finished third to the Czechs' second because of a poorer goal differential (the teams had tied 3-3 in the round robin).

*Promoted from B Pool in 1984; Demoted to B Pool for 1986

**Tournament Format**

All eight teams were placed in one group and a simple round robin schedule was adopted. In the case of a tie in the standings between two teams, the result of the game between those two would be the first tie-breaker and goal differential the second decider. Thus, the Soviets won the bronze despite finishing with the same number of points as fourth place Finland because the Russians won the head-to-head game 6-5.

**Tournament Format**

All eight nations were placed in one group and played a single round-robin schedule. Because of the Canada-Russia brawl, both nations were disqualified from medal contention. Thus, even though Canada had nine points in six games and Sweden had nine points in seven games, Sweden was awarded the bronze.

**Tournament Format**

All eight countries were placed in a single division and played a round-robin schedule. The first factor in breaking a tie between two nations was the result of the head-to-head game in the round-robin (which is how the Soviets beat Sweden for the gold). The second determining factor was goals differential (goals against subtracted from goals for), which is how the Czechs beat Canada for the bronze.

**Tournament Format**

All eight teams played a simple round-robin in one division. A tie in the standings between two teams was broken first by the result of the game between the two (which is how Canada beat the Soviet Union for gold, and also why Finland was placed above Sweden in the final table). In case of a tie still, goals differential would decide the placings.

**Tournament Format**

As was the standard, the eight teams were pooled in one division to play a round-robin tournament. In case of a tie in the standings, head-to-head results were the deciding factor. This came into play on the last day of the championships when Canada and the Soviet Union were tied for first and set to play each other.

**Tournament Format**

The World Junior championships changed radically for the first time for these 1996 games as ten nations were now competing instead of eight. As a result, two divisions of five teams each were created and a dynamic playoff showdown replaced the more staid round-robin format. The preliminary round still consisted of four round-robin games, with the top team in each division earning spots to the semi-finals.

The second and third place team from each division had a one game playoff to earn the other two spots, the second in one division playing the third in the other and vice versa. The semi-finals winners then played for the gold medal, and the semis losers played for the bronze. Ties in the preliminary round would be broken, as always, first by head-to-head results and then goals differential.

In addition, there was a full round-robin in the relegation round between the four teams that did not advance to the playoffs. Previous results between those nations counted, and the team that finished last (fourth) was demoted to the 'B' pool for next year's tournament.

*Promoted from B Pool in 1996; Demoted to B Pool for 1998

**Tournament Format**

With ten teams in the championships, a new format for the tournament was used (as in '96). Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze.

^promoted from B Pool in 1997
*demoted to B Pool for 1999

**Tournament Format**

As with the previous year, a shorter round-robin allowed for quick elimination of the weakest two teams while the top eight went on to a playoffs. The two teams that didn't qualify played a two-game total goals series to determine which would be relegated to the 'B' pool for the following year. A ten-minute overtime was used for ties only in the playoffs, after which time a shootout would settle a winner.

*Promoted from B Pool in 1998; Demoted to B Pool for 2000

**Tournament Format**

Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze. The bottom four teams were placed in a consolation round pool to determine which two countries remained in the top pool the next year and which two were demoted.

*Promoted from Division I in 2003; Demoted to Division I for 2005

**Tournament Format**

Two divisions of five teams were created, and each country played a round-robin series in a preliminary round (four games). The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from the one division played the third place team from the other, and vice versa. The two semi-finals winners then went on to play for the gold medal, and the semis losers played for the bronze.

*demoted to Division I-A for 2014

**Tournament Format**

There were two divisions of five teams and each played a round-robin series in a preliminary round. The top team from each division advanced to the semi-finals, and the second and third place teams played for the other two spots. The second place team from one division played the third place team from the other, and vice versa. The two semi-finals winners played for gold, and the losers played for bronze.
